The Regional Director,
Kenya Rural Roads Authority (KeRRA),
P.O. Box 2708-30100, Eldoret.

Dear Sir/Madam,

RE: APPLICATION FOR INDUSTRIAL ATTACHMENT – COMPUTER SCIENCE

I am writing to apply for an industrial attachment position in the IT department at the Kenya Rural Roads Authority (KeRRA). I am currently in my third year pursuing a Bachelor of Science in Computer Science at the University of Eldoret, and I am eager to gain practical experience in a professional technical environment during the upcoming attachment period.

Throughout my studies, I have built a solid foundation in backend development, database management, and system architecture. I am proficient in Python and SQL (PostgreSQL and MySQL), and I have hands-on experience with FastAPI and Docker. I also have a keen interest in workflow automation and data engineering — areas I believe would add value to KeRRA's digital operations.

I am a fast learner who takes initiative, and I would welcome the chance to support your technical team while growing under their guidance. I am confident that my skills and enthusiasm make me a good fit for your department.

Kindly find attached my Curriculum Vitae and the introduction letter from the University of Eldoret. Thank you for your time and consideration. I look forward to hearing from you.

Yours Faithfully,

Lilian Atieno
